Introduction

In 2009, the Archdiocese of Miami reluctantly closed St. Malachy Catholic School in the city of Tamarac, 15 miles from Fort Lauderdale. On the one hand, St. Malachy fell victim to the Great Recession. On the other, it was undermined by the same factors that have conspired to close thousands of Catholic schools over the past half century.

Thankfully, the story didn't end there. The economy improved. Young families began moving to the area. And Florida's pace-setting school choice programs became even stronger, with increased eligibility, more value per scholarship, and more state support.

[Last fall, the Archdiocese re-opened St. Malachy.](#)

That unlikely comeback alone would be inspiration enough against a national backdrop in which Catholic school enrollment continues to struggle. But in Florida, it's just one of many examples that illustrate the most encouraging trend lines for Catholic schools in America.

Nationally, Catholic school enrollment held steady in 2023-24, according to the [latest annual report](#) from the [National Catholic Educational Association](#), released on March 20.

In Florida, enrollment climbed to 90,785. That's up 5.2 percent from the prior year – and more growth in one year than in the previous 10 years combined.

In light of the new data, we thought it appropriate to issue this brief update to the white paper we published last August.

[“Why Catholic Schools In Florida Are Growing: 5 Things To Know”](#) took a closer look at the Florida trend lines and some of the leading factors behind them.

At the time of publication, Florida was the only state in the Top 10 for Catholic school enrollment to experience growth over the past decade – a modest 4.4 percent. The latest NCEA figures show Florida remains the outlier. But this year's gains pushed the 10-year increase to 9.2 percent. See Figure 1.

Figure 1. Trends in states with 10 highest Catholic school enrollments

State	2013-14	2023-24	Change	%Change
California	212,918	186,199	-26,719	-12.5%
New York	180,728	124,638	-56,090	-31.0%
Ohio	133,501	119,285	-14,216	-10.6%
Illinois	147,003	113,361	-33,642	-22.9%

Source: National Catholic Educational Association

Clearly, Florida’s robust array of school choice programs are a difference maker. This year, nearly 400,000 students in the state are using choice scholarships. But it’s also true that in the most competitive educational environment in the country, Florida Catholic schools have found even more ways to stand out to even more families.

They have become increasingly diverse along multiple dimensions, and more diversified in terms of high-quality academic programming. Some dioceses have also embraced – and relentlessly deployed – cutting-edge communications strategies to raise parental awareness about choice scholarships.

Our white paper touches on all of these parts of the story. This brief is intended as a supplement.

We updated a handful of key charts and graphs featured in the white paper, using new data from the NCEA and the [Florida Catholic Conference](#). Among them: a year-by-year breakdown of Catholic school enrollment numbers, for the past decade, for all 50 states.

We also added a couple of new charts. One highlights the trend lines for students using special needs scholarships in Florida Catholic schools. The other does the same for non-Catholic students. Both are on the rise.

We are happy to address any questions or provide any additional information we can about the good news from Florida. Please see the bios at the end of this brief for our contact information.

Students at St. Charles Borromeo Catholic School in Orlando

Rising Enrollment

Following a COVID-fueled drop in 2020, Catholic schools rebounded nationally with two consecutive years of growth. This year, enrollment held steady. See Figure 2.

Catholic schools in Florida, meanwhile, had a banner year this year. See Figure 3.

The big reason: HB 1. The historic law passed by the Florida Legislature and signed by Gov. Ron DeSantis in March 2023 makes every student in Florida eligible for a state-supported education choice scholarship.

Figure 2. Nationwide Catholic school PreK-12 enrollment, 2013-14 to 2023-24.

Figure 3. Florida Catholic school PreK-12 enrollment, 2013-14 to 2023-24.

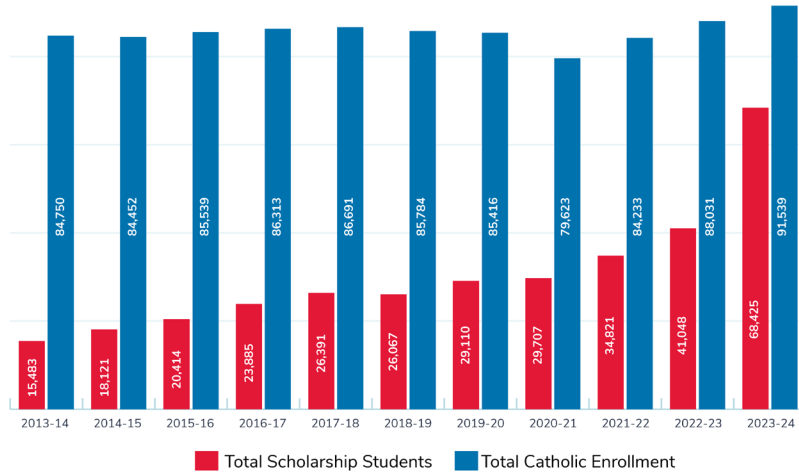

Source: National Catholic Educational Association

Increasing Choice

HB 1 led to a historic increase in the share of Florida Catholic school students who use choice scholarships, from 47 percent in 2022-23 to 75 percent in 2023-24. See Figure 4 for the change in scholarship share, and Figure 5 for a breakdown in scholarship type. Appendix B in the white paper offers a primer on Florida’s different scholarships.

Figure 4. Share of choice scholarship students in Florida Catholic schools, 2013-14 to 2023-24.

Source: Florida Catholic Conference. Note: The total enrollment figures are slightly higher than the figures from the NCEA, because they include a broader group of PreK and preschool students. The scholarship totals here also include Florida’s state-funded vouchers for PreK students.

Figure 5. Enrollment in Florida Catholic schools by scholarship type, 2013-14 to 2023-24.

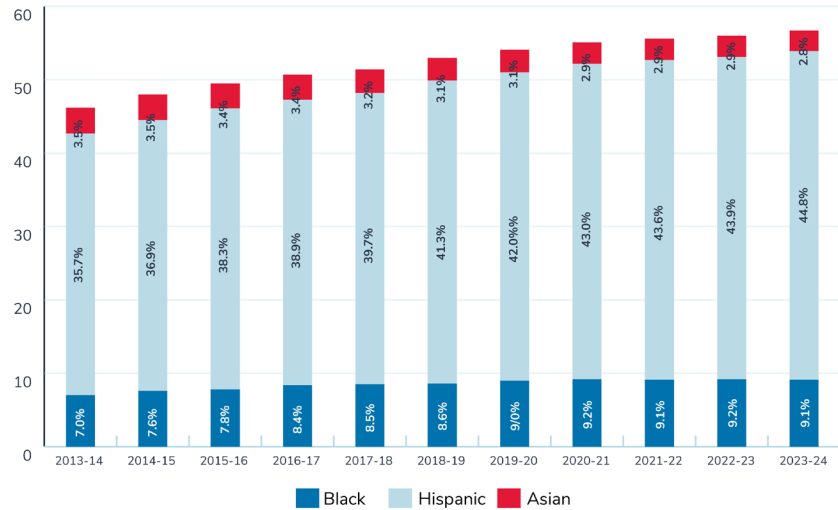

Source: Florida Catholic Conference

Growing Diversity

As our white paper noted, students in Florida Catholic schools have become increasingly diverse, including with overall race and ethnicity. See Figure 6.

This year, Florida Catholic schools also saw 37 percent growth in students who use special needs scholarship. See Figure 7. That program continues to be especially popular with parents, and Florida lawmakers have proposed additional capacity so it can serve every family who wants it.

Figure 6. Minority student share in Florida Catholic schools, 2013-14 to 2023-24.

Figure 7. Special needs scholarship students in Florida Catholic schools, 2013-14 to 2023-24.

Source: Florida Catholic Conference

Growing Diversity (continued)

Florida Catholic schools are also seeing a steady increase in students who are not Catholic. This year, the number of non-Catholic students in Florida Catholic schools rose from 16,914 to 17,616, a 4.2 percent increase. The overall share remained the same. See Figure 8.

Discussion

Private school choice in Florida celebrates its 25th anniversary this year. Its expansion has given families from all walks of life access to schools that weren't available a generation ago - and helped bring historic progress to Florida's education system.

Catholic schools have been a [strong part of Florida's success](#). Now, with education choice finally gaining traction across America, supporters of Catholic education have an unprecedented opportunity to bolster Catholic schools in their states.

Families have endless reasons for wanting options. [Writing for The 74 last October](#), parent Alicia Giordano detailed that her family moved from Texas to Florida in part to access the choice programs that Florida has and Texas doesn't. Her children have learning and medical challenges, and she determined a Catholic school would be best for them.

The Catholic Church also emphasizes the importance of choice. The Catechism of the Catholic Church teaches, "Parents have the right to choose a school for them which corresponds to their own personal convictions. This right is fundamental." It also says "public authorities have the duty of guaranteeing this parental right and ensuring concrete conditions for its exercise."

We hope the story of Florida's Catholic schools can offer lessons to Catholic educators elsewhere. There's no reason Florida should remain the outlier.

Patrick Gibbons is Senior Manager, Public Affairs, at Step Up For Students. Prior to joining Step Up in 2013, Patrick worked with EdChoice, Nevada Policy Research Institute, Goldwater Institute, and the Oklahoma Council of Public Affairs. He can be reached at pgibbons@sufs.org

Ron Matus

Ron Matus is Director, Research & Special Projects, at Step Up For Students. He joined Step Up in 2012 after more than 20 years as a journalist. He can be reached at rmatus@sufs.org.

About the organizations

The Florida Catholic Conference and the Florida Conference of Catholic Bishops are the two corporations of the Catholic bishops of Florida. The Conference is the nonpartisan voice of the bishops that carries out policy and advocacy activities. It also accredits and ensures the continual improvement of Catholic schools and coordinates disaster relief efforts with Catholic Charities agencies across Florida.

Step Up For Students is a nonprofit that administers four education choice scholarship programs in Florida: the Florida Tax Credit Scholarship, the Family Empowerment Scholarship, the Hope Scholarship, and the New Worlds Scholarship Accounts.
